

FOR IMMEDIATE RELEASE: April 15, 2011...Officials at **Ohio Magnetics, Inc.** (Maple Heights, OH) announced the availability of two new products for the industrial marketplace. The new 72 SLS Model (72 inch diameter) electro-lifting magnet is now available in their Super Loadstar Magnet Product Group. The new Model RD-3A has also been added to the Ohio Duty Cycle Magnet Controllers Product Group.

"The field trials on our new 72 SLS - SUPER LOADSTAR have surpassed our expectations on performance," said Ken Richendollar, Sales & Marketing Manager for **Ohio Magnetics**. "Based upon the excellent reviews we've received from our test customers during the field trials, we are pleased to add this new model to our **SUPER LOADSTAR Lifting Magnet Product Line** and offer it for general industry use and to the 1300-plus members of **NASCO-OP (National Association Supply Cooperative)**."

72 SLS Super Loadstar

RD-3A Ohio Duty Cycle Magnet Controller

Ohio Magnetics' new 72 SLS - SUPER LOADSTAR offers customers an exceptionally reliable electro-lifting magnet

- Providing Greater Lifting Capacity
- With A Deep Field Design
- With a Cooler Operating Temperature for an Extended Service Life
- Giving Increased Duty-Cycle for Enhanced Magnetic Operation
- That is 230VDC Standard
- With Rugged, Cast Case Construction
- Ideal for Hydraulic Machines
- Built for Rough Production
- With an Optional Extra Heavy-Duty LS-X Bottom Scrap Handling Applications Plate for Dense/Large Material Applications

Ohio Magnetics' new Model RD-3A Duty Cycle Magnet Controller is now also available to customers. This new magnet controller provides customers a product with

- New Lift/Drop Interlock Prevents Resistor Bank Overheating
- An Operating Range of 100-200 Amps DC
- A Rugged Steel Case Construction
- Adjustable Drop Timer Relays
- 230VDC Standard/115 VDC Available
- A Separate Resistor Bank Enclosure

For more information on these products or other **Ohio Magnetics** magnetic equipment, call toll-free: **800-486-6446** or visit www.ohiomagnetics.com.

Ohio Magnetics, Inc. is a world leader in the development of lifting magnet systems and separation equipment for the steel, scrap processing, recycling, mining and rail industry. **Ohio Magnetics, Inc.** manufactures standard and specialized circular, bipolar and rectangular lifting magnets, power supplies, rectifiers, power-take off, hydraulic driven generators and magnet controllers. With a complete full service repair shop, **Ohio Magnetics** can rebuild any type of magnet to its original specifications.

Ohio Magnetics, Inc. is a subsidiary of **HBD Industries, Inc.** (Dublin, OH), one of the largest industrial product suppliers in the US. **HBD Industries** manufactures custom-designed and standard industrial products serving many diverse industries and markets. Products manufactured by **HBD companies** include: AC/DC/BLDC electric motors, aerospace precision components, budding strips, cemented tungsten carbide parts, closed die forgings, near-net shape forgings and precision-machined components for aerospace, orthopedic and surgical instrument applications, coated rubber fabrics, conveyor belting, drives, ducting, gear reducers, hose (automotive, aviation, hand-built, industrial, marine and petroleum), material handling products (metal separators/detectors and electro-magnetic lifting equipment), power transmission V-belts, rubber bands, rubber roll coverings and ventilation equipment (fans/blowers).
