

# SUPER LOADSTAR SCRAP HANDLING MAGNETS

SUPER LOADSTAR™ lifting magnets feature a heavy-duty cast case construction designed for production scrap handling.

- Sizes ranging from 48" to 72" (1220 to 1829 mm) in diameter
- Sizes are cast case except for 72" fabricated
- Continuous duty cycle ratings
- Extra deep field coil design
- Magnet options matched to excavator load limit
- Chain suspension standard
- Standard hard face weld for high abrasion applications
- Superior strength and rugged steel case construction
- Increased production, long service life and easy serviceability
- Low-cost, high-performance magnets provide maximum value
- Lifting Capability Range – 2,200 to 5,600 lbs.
- 230 VDC standard; special voltages available by request

## Industrial Applications

- Production scrap handling
